Vancouver Cherry Blossom Festival- 10th Anniversary Birthday Blossoms Tree Planting Program

Trees play a very important role in neighbourhood character and placemaking in addition to providing environmental benefits. Along with demolition concerns, there is a troubling trend with the number of trees being cut down. Last year the Globe and Mail reported that in 2013 and 2014, a total of [7,300 trees came down](#). Our friends at the [Vancouver Cherry Blossom Festival](#) are having their 10th Anniversary Birthday Blossoms Tree Planting Program this year and this a great opportunity to plant one.

If you've always dreamed of having a flowering cherry tree to grace your own garden, now's the time to start planning for one. Celebrate Vancouver Cherry Blossom Festival's tenth anniversary and order your own Birthday Blossoms cherry tree. The Vancouver Cherry Blossom Festival has a limited supply of exceptional quality cherry trees in a variety of early-middle-and-late blooming cultivars for planting on private property. They can be purchased at the special price of \$49.99 [here](#) at the Vancouver Cherry Blossom Festival website.

Ornamental cherry trees make a beautiful addition to a garden, as a cherished gift, or to commemorate joyous occasions. You could enjoy 84 days of cherry blossoms blooming on your own property from the end of February to mid May !
